SECTIONAL GATES PRODUCT CARD

- » High corrosion protection provided by ZM EcoPROTECT coating,
- » Excellent thermal insulation oscillating at a high level of $U=0.54[W/m^2K]$ for 40 mm thick panels filled with CFC-free polyurethane foam,
- » All elements of the structure are made of hot-dip galvanized steel sheets.
- » Three types of panel element height with Finger Safe: 500 mm, 555 mm and 610 mm,

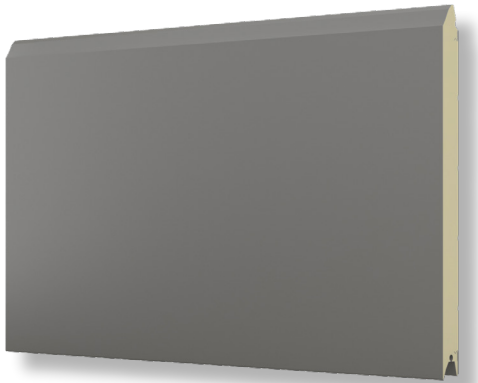

- » V2 panels with heights: 500 mm, 530 mm, 562 mm, 610 mm,
- » Panel element dedicated to the industrial gate available in heights of 500 mm and 610 mm,
- » Various Colors and structure of the door curtain [can be painted and veneered],,
- » Wide range of panel embossing,
- » Convenient operation of Garage doorsj - manual or via electric drive. Available option to control from a smartphone (manufacturer's app), as well as a smart home control panel,

Note!

Gates over 4500 mm wide have double hinges, rollers and reinforcements on every second panel. For gates over 5100 mm wide, the above elements are present on every panel.

SECTIONAL GATES Measurement

Signs

- A - Hole width (order dimension)
- H - Hole height (order dimension)
- C - Lintel*
- E, F - Eels**
- D - Depth of the garage***

* the space from the top edge of the entry lounge to the ceiling, measured inside the room

** space from the side edges of the drive-in lobbies to the garage walls, measured internally

*** dependent on factors, i.e. the type of drive used, the type of guidance, as well as the height of the door

Horizontal Guides and drive cannot be installed if there are any kind of pipes, beams or other elements at their height that prevent them from working freely.

Available guide types

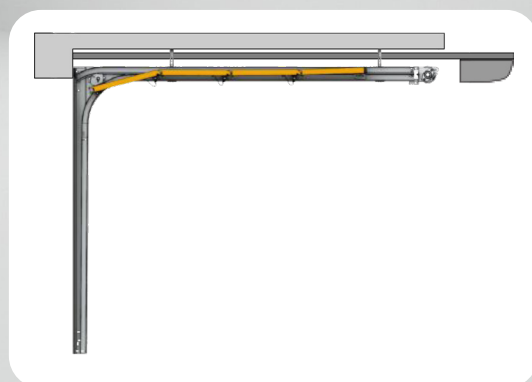

SRF70	SRF 200	SRF 350	RSN
*at a surcharge	standard	standard	*at a surcharge

Table of surcharges:
Page 76

fixed surcharge: 396,00 zł

SECTIONAL GATES SRF 70

- Torsion springs mounted on the back of the gate, double top guides.
- Maximum dimensions: Width: 5000 mm* Height: 3250 mm*
*individual solution

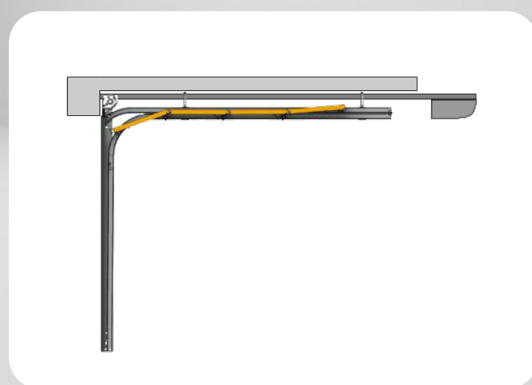

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	min. 120 mm	min. 120 mm
Eels	100 mm	100 mm
Depth of the garage	Hole height + 600 mm	length of rail used + 500 mm
Height of the entrance light after installation of the gate	Hole height - 150 mm	Hole height / -60 mm*
Width of the entrance light after installation of the gate	Hole width	Hole width

* in the case of a gate over 4500 mm wide, Height is reduced by 60 mm.

SECTIONAL GATES SRF 200

- Torsion springs mounted at the front of the gate, double top guides
- Maximum dimensions: Width: 5750 mm, Height: 3250 mm

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	min. 200 mm	min. 200 mm
Eels	100 mm	100 mm
Depth of the garage	Hole height + 600 mm	length of rail used + 500 mm
Height of the entrance light after installation of the gate	Hole height - 100 mm	Hole height / -60 mm
Width of the entrance light after installation of the gate	Hole width	Hole width

* in the case of a gate over 4500 mm wide, Height is reduced by 60 mm.

SECTIONAL GATES SRF 350

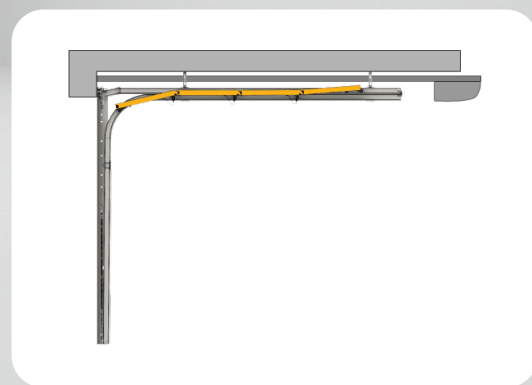

- Torsion springs mounted at the front of the gate, single top guide
- Maximum dimensions: Width: 5750 mm, Height: 3250 mm

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	min. 350 mm	min. 350 mm
Eels	100 mm	100 mm
Depth of the garage	Hole height + 600 mm	length of rail used + 500 mm
Height of the entrance light after installation of the gate	Hole height	Hole height
Width of the entrance light after installation of the gate	Hole width	Hole width

SECTIONAL GATES RSN

- Tension springs mounted along vertical guides, double top guides
- Maximum dimensions: Width: 3200 mm, Height: 2375 mm

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	min. 120 mm	min. 120 mm
Eels	100 mm	100 mm
Depth of the garage	Hole height + 600 mm	length of rail used + 500 mm
Height of the entrance light after installation of the gate	Hole height - 100 mm	Hole height
Width of the entrance light after installation of the gate	Hole width	Hole width

SECTIONAL GATES SERVICE DOOR

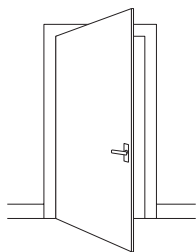

Service Doors

Width of opening light	840mm
Width on outer sides of profiles	960mm
Minimum dimension from the side edge of the service door to the side of the door leaf	500mm
Minimum dimension from top edge of service door to header	750 mm
Minimum lintel dimension of sectional garage door	720 mm
Standard Threshold Height in the service door	750 mm
Low threshold in service door	30mm
Maximum door width for standard threshold	5700 mm
Maximum door width for low threshold	5000 mm

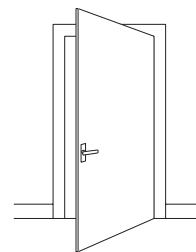

The color of the hardware in the standard Anode, the possibility of painting.

*The height of the service door opening depends on the height of the door, as well as the layout of the panels.

- The lower panel finished with an aluminum profile with a rubber seal,
- Door hardware made of aluminum (anodized color),
- The door is mounted in the middle of the width of the gate shell as standard,
- Opening direction:

SERVICE DOOR LEFT FROM OUTSIDE
(HANDLE ON THE RIGHT SIDE)

RIGHT SERVICE DOOR FROM THE OUTSIDE
(HANDLE ON THE LEFT SIDE)

To order a service door, specify its location relative to the door shell.

DEXXO SMART 1000 io with rail 4500 mm + 2 remote controls Keygo 4 io	3064,00 zł/pcs.

*Drives are equipped with rail with chain as standard, except for 4500 mm rails which are only available in belt version.

*In drives with rail 2900 mm and 3500 mm on belt, the appropriate surcharge must be added.

Rail 2900 mm with chain or strap - For a gate with a maximum height of 2250 mm

Rail 3500 mm with chain or strap - For a gate with a maximum height of 2900 mm

Rail 4500 mm with strap - For a gate with a maximum height of 3600 mm

Extras for Somfy drives

Product	Photo	Price
Keytis remote control 2NS, 2-channel Remote control for controlling two drives, e.g. entry gate and garage door or other RTS devices.		123,00 zł/pcs.
Keytis remote control 4NS, 4-channel Remote for controlling four drives with RTS technology. It has a button lock to prevent accidental button pressing. A four-digit PIN prevents unauthorized use of the remote.		158,00 zł/pcs.
Keygo remote control 4 RTS, 4-channel Remote for controlling four drives in RTS technology with built-in LED indication. The compact design makes Control easier and more comfortable.		169,00 zł/pcs.

Extras for Somfy drives

Product	Photo	Price
Keygo remote control io 4, 4-channel Remote to control four drives with io-homecontrol® technology. It features high impact resistance. as well as adverse weather conditions. LED confirms the execution of the command		253,00 zł/pcs.
Wall transmitter RTS (3-channel), (P55) Wireless Wall transmitter designed for installation inside the house (garage). Possibility to control two drives with RTS technology		312,00 zł/pcs.
Wall transmitter 3-channel io Wireless Wall transmitter for outdoor. as well as indoor installation. Control drives with io-homecontrol® technology. Available function of calling Pricers		312,00 zł/pcs.
Wall transmitter Smoove Origin io with pure frame Control individual, group or central. LED indicates sending a command. Wireless installation - battery-powered transmitter. Compatible with all external or integrated RTS Receivers.		233,00 zł/pcs.
Universal pulse RTS receiver 2-channel Possibility to control up to two automatic control devices. The connection between the drive and the Receiver is via a potential-free contact. The device has a hermetic housing, resistant to weather conditions. Maximum number of programmed remotes: 16 per relay.		294,00 zł/pcs.
Receiver io -Access receiver to compatible Receiver to adapt Garage doorsj drive to io-homecontrol® control system. Control with one-way/two-way remotes and from a smartphone app. A set of photocells is required in automatic mode. No feedback on the position of Garage doorsj.		623,00 zł/pcs.
Radio code keypad 2 channel RTS Wireless Wall transmitter with code keypad. Allows Control of one or two drives with RTS technology. The main button unlocks one code. Two additional codes are assigned to each button, responsible only for unlocking the button. The security features used are ideal for restricting access.		592,00 zł/pcs.
Metal radio io keypad Wall-mounted wireless control device for up to two separate drives with encrypted access, using io-homecontrol® technology. Code keypad features backlit buttons for low light conditions. No wiring required. Compatible with partial opening function. Operation is in sequential mode. After code approval - 30 seconds of activity.		760,00 zł/pcs.
TaHoma® Switch Central control unit with io-homecontrol®, RTS, RTD, RTDS technology.		1047,00 zł/pcs.
PKL nt surface-mounted key switch (surface-mounted) Hermetic, with increased resistance to adverse weather conditions. Operation of the gate is via key control.		218,00 zł/pcs.
PKL pt flush mounted key switch (flush mounted) Hermetic, with increased resistance to adverse weather conditions. Operation of the gate is via key control.		218,00 zł/pcs.
Battery backup power to DEXXO Compact battery to sustain gate operation in case of main power failure. Depending on the characteristics of the gate, it allows emergency opening of the gate within up to 10 full cycles. Automatic charging at full power yeses about 48h.		165,00 zł/pcs.

Extras for Somfy drives

Product	Photo	Price
Set of photocells Master Pro Bitech (NC,NO) Detect obstructions (objects or people) in the light of the gate when it closes. Range to 10 mb.		267,00 zł/set
Master Pro aluminum photocell housing Protection of photocells from adverse factors. Improving the visual effect.		182,00 zł/pcs.
Reflector photocell + reflector Stop gate movement in case of a break in the transmission of the world/a beam between the transmitter and the reflector. Dual three-position protection: the transmitter can be placed in one of three positions. Range of up to 12 mb.		540,00 zł/set
External RTS antenna Increasing the range of remote control with RTS technology.		395,00 zł/pcs.
External io antenna Increase the remote control range of io-homecontrol® technology.		227,00 zł/pcs.
Orange warning lamps ECO PRO 24V The device signals the movement of the garage door / entry gate. Compatible with drives in the RTS system, as well as io-homecontrol® technology.		245,00 zł/pcs.
Orange warning lamp Master PRO 24 V RTS Warning lamp in LED technology with built-in antenna for optimal range. The device signals the movement of a garage door or entrance gate. Operating range: RTS technology.		389,00 zł/pcs.
Orange warning lamp Master PRO 24 V IO Warning lamp in LED technology with built-in antenna for optimal range. The device signals the movement of the garage door or entry gate. Operating range: io-homecontrol® technology		389,00 zł/pcs.
Wall mount for warning lamps The wall bracket is characterized by easy installation. Installation can also yese place on narrow posts with a width of 70 mm. It is possible to mount an antenna. Two ways of cable routing in combination: warning lamps + antenna.		111,00 zł/pcs.
Rail with drive belt of length. 2900 Drive surcharges when converting a rail with chain to a rail with timing belt.		283,00 zł/pcs.
Rail with drive belt of length. 3500 Dopląty to the drive when converting a rail with chain to a rail with timing belt.		211,00 zł/pcs.

Sectional doors with surfaces up to 10 m² Thrust: 600 Nm, chain rail

Drive	Price
HG 600 with rail 3300 mm + remote 4-channel Sectional doors with surfaces up to 10 m ² . Thrust: 600 Nm, chain rail.	877,00 zł/pcs.
HG 600 with rail 3900 mm + remote 4-channel Sectional doors with surfaces up to 10 m ² . Thrust: 600 Nm, chain rail.	930,00 zł/pcs.

Sectional doors with surfaces up to 14 m² Thrust: 1000 Nm, chain rail

Drive	Price
HG 1000 with rail 3300 mm + remote 4-channel Sectional doors with surfaces up to 14 m ² . Thrust: 1000 Nm, chain rail.	930,00 zł/pcs.
HG 1000 with rail 3900 mm + remote 4-channel Sectional doors with surfaces up to 14 m ² . Thrust: 1000 Nm, chain rail.	1037,00 zł/pcs.

Rail 3300 mm with chain – For a gate with a maximum height of 2500 mm.
 Rail 3900 mm with chain – For a gate with a maximum height of 3100 mm.

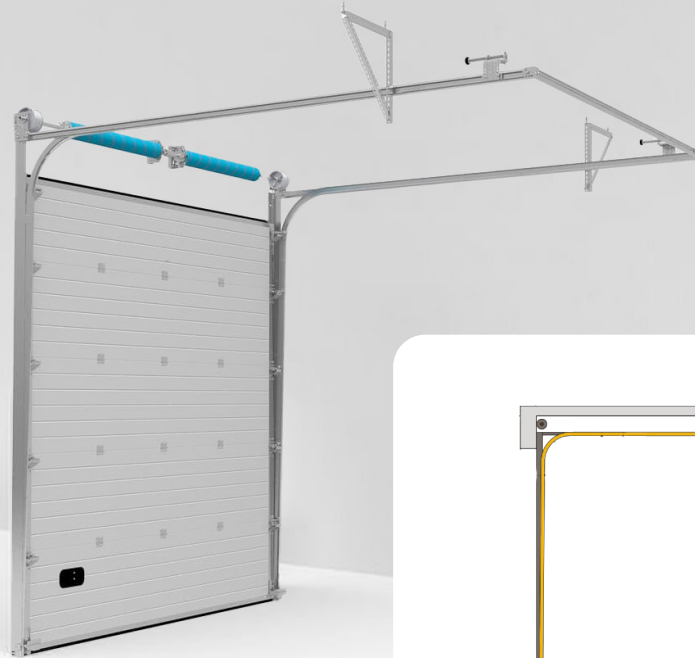

Extras for CAME drives

Product	Photo	Price
Remote SP2 2-channel, Variable-code The remote control has a signaling LED, informing the user of the start of operation. Range of operation: 50 - 150 m.		63,00 zł/pcs.
Remote SP4 4-channel, Variable-code The remote control has a signaling LED, informing the user of the start of operation. Range of operation: 50 - 150 m.		68,00 zł/pcs.
Two-channel wall button SPACE (black) Wireless operation. For indoor use. Variable-code. Range of operation: 50 - 150 m.		77,00 zł/pcs.
Universal 1-channel radio for cooperation of foreign devices It stores a maximum of 36 remote codes. It has an antenna connector.		173,00 zł/pcs.
DIR10 outdoor photocell The device works by infrared synchronization between the transmitter and Receiver. Range of operation: 10 m. ABS plastic housing.		205,00 zł/set

INDUSTRIAL GATES – GUIDES SL

➤ Standard Guides

➤ Maximum dimensions: Width: 5500 mm, Height: 8000 mm

SL430

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	min. 430 mm	min. 430 mm
Eels	120 mm*	120 mm*
Max Gate Height	5500 mm	5500 mm
Max. Hole Width	8000 mm	8000 mm
Min. depth of the garage	Height+ 1000 mm	Height+ 1000 mm

* at the side drive or chain reel, one of the carbons must have a dimension of min. 250 mm

Note!

It is possible to make a gate with a height of maksymalnej 10000 mm - while maintaining a minimum lintel 530 mm.

Possibility to make an overhang in the gate by a maximum of 200 mm - no extra charge.

SL370

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	min. 370 mm	min. 370 mm
Eels	120 mm*	120 mm*
Max Gate Height	5500 mm	5500 mm
Max. Hole Width	8000 mm	8000 mm
Min. depth of the garage	Height+ 1000 mm	Height+ 1000 mm

* at the side drive or chain reel, one of the carbons must have a dimension of min. 250 mm

INDUSTRIAL GATES – GUIDES HL

- Guides with elevation
- Maximum dimensions: Width: 7500 mm, Height: 6000 mm
- SUPPLY: +12% up to the value of the gate

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	min. 630 mm	min. 630 mm
Eels	120 mm*	120 mm*
Max Gate Height	6000 mm	6000 mm
Max. elevation	4160 mm	4160 mm
Max. Hole Width	7500 mm	7500 mm
Min. depth of the garage	Height + 1000 mm - surpass	Height + 1000 mm - surpass
Lowered shaft (Lintel)**	min. 1500 mm	min. 1500 mm

*at the side drive or chain reel, one of the carbons must have a dimension of min. 250 mm

** surcharges 1500,00 PLN net + surcharges for guidance amounting to 12% up to the value of the gate.

INDUSTRIAL GATES – GUIDES HL + SR

- Leading with an angle overrun
- Maximum dimensions: Width: 7500 mm, Height: 6000 mm
- SUPPLY: +72% up to the value of the gate

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	min. 630 mm	min. 630 mm
Eels	120 mm*	120 mm*
Max Gate Height	6000 mm	6000 mm
Max. elevation	4100 mm	4100 mm
Max. Hole Width	7500 mm	7500 mm
Min. depth of the garage	Height+ 1000 mm - surpass	Height+ 1000 mm - surpass
Lowered shaft (Lintel)**	min. 1500 mm	min. 1500 mm

*at the side drive or chain reel, one of the carbons must have a dimension of min. 250 mm

** surcharges 1500,00 PLN net + surcharges for guidance amounting to 12% up to the value of the gate.

INDUSTRIAL GATES – GUIDES VL

- Vertical slides
- Maximum dimensions: Width: 7000 mm, Height: 3300 mm
- SUPPLY: +12% up to the value of the gate

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	Height of the gate + 500 mm	Height of the gate + 500 mm
Eels	120 mm*	120 mm*
Max Gate Height	3300 mm	3300 mm
Max. Hole Width	7000 mm	7000 mm
Lowered shaft (Lintel)**	min. 1500 mm	min. 1500 mm

Note!

It is possible to make a gate with a height of 9000 mm while maintaining a minimum lintel 600 mm.

*at the side drive or chain reel, one of the carbons must have a dimension of min. 250 mm

** surcharges 1500,00 PLN net + surcharges for guidance amounting to 12% up to the value of the gate.

INDUSTRIAL GATES – GUIDES SR

- Angled slides
- Maximum dimensions: Width: 7000 mm, Height: 3300 mm
- SUPPLY: +72% up to the value of the gate

Mounting dimensions (mm)	Manual control	Automatic control
Lintel	min. 430 mm	min. 430 mm
Eels	120 mm*	120 mm*
Max Gate Height	5500 mm	5500 mm
Max. Hole Width	max. 7000 mm	max. 7000 mm
Min. depth of the garage	Height + 1000 mm	Height + 1000 mm

Note!

When ordering, specify the angle of the roof, which ranges from 1-45°.

*at the side drive or chain reel, one of the carbons must have a dimension of min. 250 mm

PRICE-LIST Extras for the industrial gate

Name	Price
Inner bolt*	41,00 zł/pcs.
Microswitch for inner bolt / for Kastel lock	130,00 zł/pcs.
Cable release	103,00 zł/pcs.
Kastel lock**	184,00 zł/pcs.
Kastel built-in lock**	1172,00 zł/pcs.
Chain turnstile	467,00 zł/pcs.
Additional chain for turnstile	43,00 zł/mb
Chain tensioner [reduces the risk of uncontrolled movement of the chain reel].	461,00 zł/pcs.
Link break protection	390,00 zł/set
Mounting bracket [3mb]	65,00 zł/pcs.
Service door + standard threshold [equipped with door closer, silver frame, threshold 15 cm].	3062,00 zł/pcs.
Service door + low threshold [equipped with door closer, silver frame, 3 cm threshold].	3888,00 zł/pcs.
Wired contracton***	464,00 zł/pcs.
Wireless contracton****	1521,00 zł/pcs.
Rectangular window with external dimensions. 203 x 610 mm [black].	243,00 zł/pcs.
Rectangular window with external dimensions. 336 x 640 mm [white, silver, black].	315,00 zł/pcs.
Rectangular window with external dimensions. 370 x 680 mm [black].	302,00 zł/pcs.
Rectangular window with external dimensions. 430 x 770 mm [black].	390,00 zł/pcs.
Rectangular window with external dimensions. 344 x 532 mm [white, brown, black, anthracite gray, golden oak, walnut, mahogany].	367,00 zł/pcs.
FSAN glazed panel with clear glass on both sides [silver frame].	385,00 zł/mb
FSAN glazed panel with clear + milk glass [silver frame].	402,00 zł/mb
FSAN glazed panel with clear + smoked black glass [silver frame].	419,00 zł/mb
FSAN glazed panel with clear + brown smoked glass [silver frame].	437,00 zł/mb
Ventilation panel [filling: perforated sheet].	354,00 zł/mb
Ventilation grille with outer dimension 138 x 344 mm [made of plastic - black or white].	117,00 zł/pcs.
Spray painting of the outside of the gate shell	234,00 zł/m ²
Double-sided lacquering of FSAN panel	101,00 zł/mb
Double-sided lacquering of the ventilation panel	101,00 zł/mb
Lacquering of the aluminum frame in the service door [including the threshold].	468,00 zł/pcs.

* When ordering an automatic gate, we always use an internal bolt together with a microswitch.

** The location of the Kastel lock is determined in the view of the gate from the outside.

*** Service door kit - protects against activation of the drive when the door is open. Requires connection via spiral cable.

**** Service door kit - prevents the drive from starting when the door is open. Does not require a spiral cable connection. It is powered by batteries.

- Rectangular windows have clear glass and are bolted together.
- The side hardware comes only in zinc.
- Kastel lock can be in the following arrangement: right, left, center.
- In industrial sectional gates, the Kastel lock can be used only if the gate is operated manually (with a chain turnstile).

Note!

Manually or automatically operated sectional gate **is** equipped as standard with internal lock.

For an extra charge according to the table above, it is possible to **use a microswitch for the deadbolt**.

Drive	SERIES: SE 5	SERIES: SE 9
Remote torque	50 Nm	90Nm
Remote speed	24 obr/min	24obr/min
Diameter of the output shaft	25,4mm	25,4 mm
Maximum resistance torque	200 Nm	450 Nm
Maximum gate weight	2500 N	4000 N
Remote speed otw./zam. with a frequency converter	42/30 obr/min	-
Engine power	300W	370W
Operating voltage	Three-phase 230/400V / 50Hz	Three-phase 230/400V / 50Hz
Operating/maximum current	1,1A/1,9A	1,2A/2,1 A
Maximum number of switches per hour	12	20
Power cable/fuse (short circuit/eye)	Sx1,5 ² / 10A	Sx1,5 ² / 10A
Limit switch range	20	20
Drive weight	15 kg	15 kg

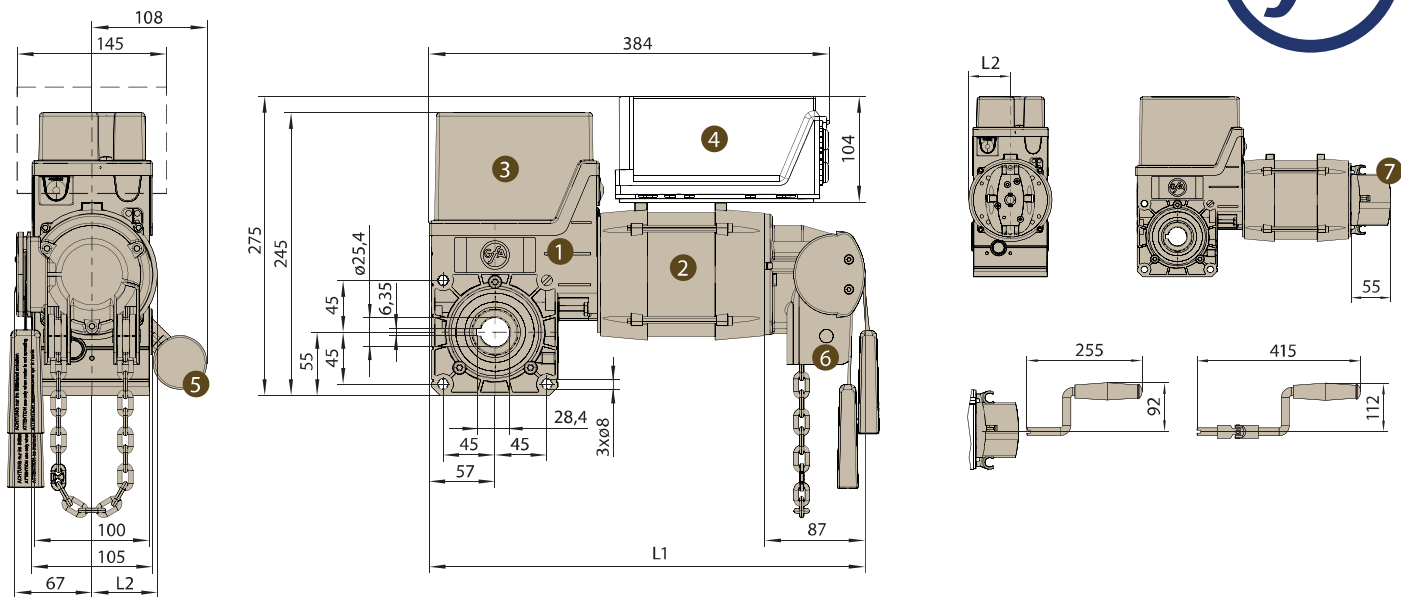

PLUS drives are equipped with the TS970 controller. Their main functions are:

- Change the direction of rotation using the keypad,
- Quick setting of extremes and all functions from the operator,
- Selectable operation mode:
 - standby mode CLOSE/OTW,
 - standby mode ZAM/OTW self-holding,
 - standby mode with active contact strip,
 - self sustain ZAM/OTW,
- Automatic recognition of the type of closing edges and analysis layout:
 - optical contact strip,
 - 8K2 NO contact principle,
 - 1K2 normally open contact principle with testing,
- Automatic timed shutdown adjustable from 1-240 seconds (on/off capability):
 - the gate closes automatically when the upper end position or intermediate position is reached after the set time has elapsed,
 - selectable countdown time again after photocell activation,
- Adjustable intermediate position with individual programming capabilities,
- Setting the permissible number of contact strip actuations at automatic timed closing (1-10),
- Adjustable reversal time when contact strips are tripped

Industrial gates with surfaces up to 16 m² Sets with torque actuator 50 Nm 230 V

SE 5 EURO

2682,00 zł/pcs.

- Actuator 50Nm, 230 V,
- Control MO720,
- Wire 7 x 0,75 / 4860,
- Handle extension cable (red-green) for manual emergency unlocking device,
- Actuator mounting console with screws,
- Mounting kit for OSE optical strip with SK spiral cable, box and adapters 11/22 mm x 2,
- Belt wedge complete for Ø 25,4 mm (B 6,35 x 9,525 x130),
- Possibility of using control: control panel + remote control.

Industrial gates with surfaces up to 16 m² Sets with torque actuator 50 Nm 380 V

SE 5 PLUS

3046,00 zł/pcs.

- Actuator 50 Nm, 400V,
- Control TS970, lidless,
- Connection kit TS-B CEE 3N~400 V (5-bieg.) with plug-in mains power cable, length 0,7 m,
- TS-B1 black cover kit for TS970 (small + large),
- Wire łączący DES: 5m,
- OSE optical strip installation kit with SK spiral cable, box and adapters 11/22mm x2,
- Actuator mounting console with screws,
- Handle extension cable (red-green) for manual emergency unlocking device,
- Belt wedge complete for Ø 25,4 mm (B 6,35 x 9,525 x 130),
- Possibility of using control: control panel + remote control.

Industrial gates with surfaces up to 28 m² Sets with torque actuator 90 Nm 230 V

SE 9 EURO

2864,00 zł/pcs.

- Actuator 90 Nm, 230V,
- Control LogiTed MO720,
- Wire 7 x 0,75 / 4860,
- Handle extension cable (red-green) for manual emergency unlocking device,
- Actuator mounting console with screws,
- Mounting kit for OSE optical strip with SK spiral cable, box and adapters 11/22 mm x 2,
- Fitted wedge complete for Ø 25,4 mm (B 6,35 x 9,525 x 130)
- Possibility of using control: control panel + remote control.

Industrial gates with surfaces up to 28 m² Sets with torque actuator 90 Nm 380 V

SE 9 PLUS

3228,00 zł/pcs.

- Actuator 90 Nm, 400 V,
- Control TS970, lidless,
- Connection kit TS-B CEE 3N~400 V (5-bieg.) with plug-in mains power cable, length 0,7 m,
- TS-B1 black cover kit for TS970 (small + large),
- Wire linking DES: 5m,
- OSE optical strip installation kit with SK spiral cable, box and adapters 11/22mm x2,
- Actuator mounting console with screws,
- Handle extension cable (red-green) for manual emergency unlocking device 2pcs. links x7 mb,
- Belt wedge complete for Ø 25,4 mm (B 6,35 x 9,525 x 130),
- Possibility of using control: control panel + remote control.

Product

Price

Remote SP2 2-channel, Variable-code

The remote control has a signaling LED, informing the user of the start of operation.
Range of operation: 50 - 150 m.

63,00 zł/pcs.

Remote SP4 4-czterochannel, Variable-code

The remote control has a signaling LED, informing the user of the start of operation.
Range of operation: 50 - 150 m.

68,00 zł/pcs.

Przycisk naścienny dwuchannel SPACE (black)

Wireless operation. For indoor use. Variable-code.
Range of operation: 50 - 150 m.

77,00 zł/pcs.

Universal 1-channel radio for cooperation of foreign devices

It stores a maximum of 36 remote control codes. It has an antenna connector.

173,00 zł/pcs.

DIR10 outdoor photocell

The device works by infrared synchronization between the transmitter and Receiver.
Operating range: 10 m. ABS plastic housing.

205,00 zł/set

Extension of emergency chain to GFA drives

160,00 zł/mb

EXTRAS Somfy

Product	Photo	Price
Keytis remote control 2NS, 2-channel Remote control for controlling two drives e.g. entrance gate and garage gate or other RTS devices.		123,00 zł/pcs.
Keytis remote control 4NS, 4-channel Remote control for four drives using RTS technology. It has a button lock to prevent accidental pressing. The four-digit PIN prevents unauthorized persons from using the remote control.		158,00 zł/pcs.
Keygo remote control 4 RTS, 4-channel Remote control for controlling four drives in RTS technology with built-in LED signaling. The compact design facilitates control and makes it more comfortable.		169,00 zł/pcs.
Keygo remote control io 4, 4-channel Remote control for four drives using io-homecontrol® technology. It is characterized by high impact resistance, as well as unfavorable weather conditions. The LED confirms the execution of the command.		253,00 zł/pcs.
Wall transmitter RTS (3-channel), (P55) Wireless Wall transmitter designed for installation inside the house (garage). Possibility to control two drives using RTS technology.		312,00 zł/pcs.
Wall transmitter 3-channel io Wireless Wall transmitter for outdoor, as well as indoor installation. Drive control with io-homecontrol® technology. SPricerio calling function available.		312,00 zł/pcs.
Wall transmitter Smoove Origin io with pure frame Individual, group or central control. LED indicates sending a command. Wireless installation - battery powered transmitter. Compatible with all external or integrated RTS receivers.		233,00 zł/pcs.
Universal pulse RTS receiver 2-channel Possibility of controlling up to two automatic control devices. The connection between the drive and the receiver is via a potential-free contact. The device has a hermetic housing, resistant to weather conditions. Maximum number of programmed remote controls: 16 per relay.		294,00 zł/pcs.
Receiver io -Access receiver to compatible Receiver for adapting the garage door drive to the io-homecontrol® control system. Control via one-way/two-way remote controls and from a smartphone app. A set of photocells is required in automatic mode. No feedback on the position of the garage door.		623,00 zł/pcs.
Radio code keypad 2 channel RTS Wireless Wall transmitter with code keypad. Allows control of one or two drives with RTS technology. The main button unlocks one code. Two additional secondary codes are assigned to each button, responsible only for unlocking the button. The security features used are ideal for restricting access.		592,00 zł/pcs.
Set of photocells Master Pro Bitech (NC,NO) Detect obstructions (objects or people) in the light of the gate as it closes. Range of up to 10 mb.		267,00 zł/set
Reflector photocell + reflector Stop gate movement in case of a break in the transmission of the world/a beam between the transmitter and the reflector. Dual three-position protection: the transmitter can be placed in one of three positions. Range of up to 12 mb.		540,00 zł/set

ENTRANCE GATES

ENTRANCE GATES Specification

SERIES ELIXO 500 3S 24V

- Drive for sliding entrance gates weighing up to 500 kg,
- Enables up to 30 cycles per day for gates weighing up to 500 kg and 8 meters long,
- Speed: moving the gate 3 meters in 75 seconds,
- Soft closing of the gate,
- Emergency battery in case of power failure.

SERIES ELIXO 500/800 230 V

- A range of durable drives with RTS control,
- Designed for sliding entrance gates:
 - ELIXO 500: 500 kg, 8 m
 - ELIXO 800: 800 kg, 70 m
- Equipped with the new CB 230 control unit, with easy adjustment of drive parameters,
- Equipped with slowdown functions in the approach zone and soft stop,
- Easy to open from the inside with a key.

ENTRANCE GATES Specification

SERIES ELIXO SMART IO

- Drive designed for sliding entrance gates weighing up to 300 kg and 6 m long,
- Quick opening and automatic closing,
- The partial opening function allows safe passage for pedestrians,
- Integrated external lighting control (drive has a built-in lighting receiver),
- Automatic obstacle detection,
- Battery backup in case of power failure,
- Safe unlocking by manual opening with individual key,

SERIES IXENGO L 24 V 3S

- Possibility of opening leaves up to 4 m long and weighing up to 400 kg,
- For residential and commercial applications,
- Soft stop and adjustable torque value,
- Suitable for narrow posts (80 mm wide),
- The non-retracting mechanism ensures very high resistance, e.g. to strong wind pressure and attempts to force opening by unauthorized persons,
- The only unique system of limit switches available on the top of the drive with traffic lights, the only one on the market. The precise place of stopping and starting the drive is confirmed by an LED diode (when it detects a switch, the diode lights up),
- Emergency battery in case of power failure,
- The unique pressing function in the closed position of the gate allows you to hold the leaves even more securely

SERIES AXOVIA 220 B

- Drive with arm for swing gates, leaf up to 2m and weighing up to 200 kg,
- Perfect for clinker posts,
- Fast opening about 10 seconds for an opening angle of 90°,
- Closing and opening limit switches built into the arm,
- Possibility to connect zone lighting (e.g. halogen up to 500 W),
- Emergency battery in case of power failure,
- Possibility to connect a solar set.

SERIES AXOVIA MultiPro 3S

- Drive with arm for swing gates, wing up to 2.5 m and weighing up to 300 kg,
- Fast opening about 15 seconds for an opening angle of 90°,
- Mechanical stops built into the drive arms,
- Four installation methods (opening arms: up to 150°, outwards up to 20%),
- Emergency battery in case of power failure.

SERIES ELIXO: for entrance gates
