PA39

Profile height 39mm
 Profile thickness 9mm
 Number of strips per 1 m of height 25,6szt.
 Weight 2,8kg
 Maximum area 6m²

PA43

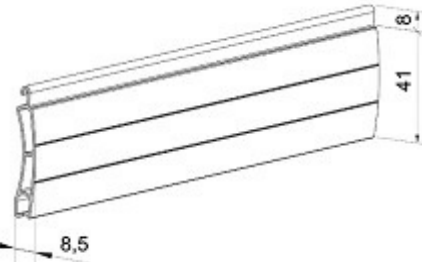

Profile height 43mm
 Profile thickness 8,8mm
 Number of strips per 1 m of height 23,2szt.
 Weight 2,6kg
 Maximum area 9m²

PA52

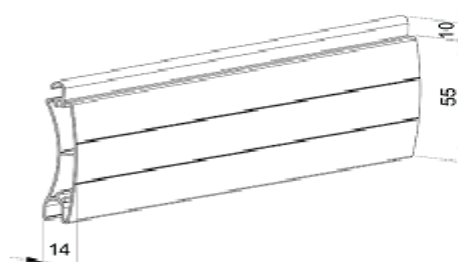

Profile height 52mm
 Profile thickness 13mm
 Number of strips per 1 m of height 19szt.
 Weight 3,0kg
 Maximum area 8m²

PE41

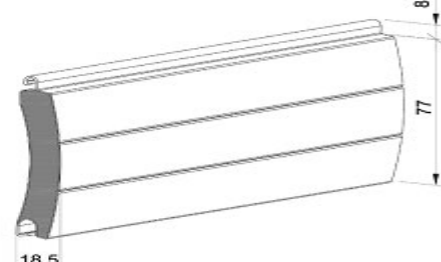

Profile height 41mm
 Profile thickness 8,5mm
 Number of strips per 1 m of height 24szt.
 Weight 7,3kg
 Maximum area 8,5m²

PE55

Profile height 55mm
 Profile thickness 14mm
 Number of strips per 1 m of height 18szt.
 Weight 8,7kg
 Maximum area 15m²

PA77

Profile height 77mm
 Profile thickness 18,5mm
 Number of strips per 1 m of height 13szt.
 Weight 4,8kg
 Maximum area 15m²

Solar sets contain a battery that can be installed inside or outside the box, in a place protected from direct weather conditions. If the batteries are installed inside the box, the winding capacity of the external roller shutter system changes and is similar to the values declared for roller shutters with an integrated roller mosquito net. Please verify the size of the box when configuring the product or increase it by one size if the battery is installed inside the roller shutter box.
